

POST-BACCALAUREATE REQUIREMENTS FOR MUSIC THERAPY EQUIVALENCY

The student must have a Bachelor's Degree in Music or Music Education before applying for the Music Therapy Equivalency program. The student must complete a minimum of the following course requirements in order to earn the Music Therapy Equivalency.

Music Therapy Core Courses (Recommended in the following sequence)

MUSI 5400 Principles of Music Therapy (Fall of 1st Year)

MUSI 5440 Music Skills for Therapists (Spring of 1st Year)

MUSI 5410 Psychology of Music (Spring of 1st Year)

MUSI 5420 Influence of Music on Behavior (Fall 2nd Year)

MUSI 5450 Music for Exceptional Children Therapy (Spring of 2nd Year)

MUSI 5430 Clinical Experience (Spring of 2nd Year)

MUSI 2021, 2022, 3025, 3026, 4020, 4021 Music Therapy Practicum sequence: A total of six credit hours to be completed during the two years of coursework in order to accumulate a total of 180 pre-internship clinical hours.

MUSI 4023 Music Therapy Internship: Must be completed before the equivalency is conferred. The student may choose and apply for any music therapy internship program that is approved by the American Music Therapy Association (AMTA). The completion of the internship takes approximately 6 months.

Other Courses Required for the Music Therapy Equivalency

The following courses are also required for the Music Therapy Equivalency if the student does not already have courses of similar content on their transcript(s). The student must provide course descriptions from their previous institution for review by the Director of Music Therapy in order to receive transfer credit. It is recommended that prospective students meet with the Director for this review and an informal interview.

	Credit hours
